Dear Parent/Guardian:

The New Jersey Department of Health and Senior Services and the regulations in N.J.A.C. 8:57-4 requires the following for the 2019-2020 school year.

Diphtheria and tetanus toxoids and pertussis vaccine:

- Every child born on or after January 1, 1997, and entering or attending Grade Six or a comparable age level special education program with an unassigned grade on or after September 1, 2008, shall have received one dose of Tdap (Tetanus, diphtheria, acellular pertussis) given no earlier than the 10th birthday.
- Children entering or attending Grade Six on or after September 1, 2008, who received a Td booster dose less than five years prior to entry or attendance shall not be required to receive a Tdap dose until five years have elapsed from the last DTP/DTaP or Td dose.

Meningococcal vaccine:

- Every child born on or after January 1, 1997, and entering or attending Grade Six or a comparable age level special education program with an unassigned grade on or after September 1, 2008, shall have received one dose of a meningococcal-containing vaccine, such as the medically-preferred meningococcal conjugate vaccine. **Please note: This applies to students when they turn 11 years of age and attending Grade Six.*

You must provide documentation of these two immunizations in order for your child to be enrolled in the 2018-2019 school year. I am requesting that documentation be submitted prior to August 8th 2019. I will be doing final review of enrollment the week of 8/12/19.

Please have your Primary Care Provider (PCP) complete the form below and submit it to your school nurse.

Thank you for prompt attention to this important matter. If you have any questions or comments, please call 908-638-4111 ext 139.
